Let's discuss at the Sept meeting, the board is a good barometer.

In the meantime, I'm going to ask for quote on the smaller area.
I'm curious to see the cost.

I wonder if we could make asks based on the formula you guys use for the assessments that BID gets already. Can we discuss in further detail after the next meeting? Or at the next meeting?

It is pricey. I could also ask for a smaller area on Lankershim, maybe a block north/south on Lankershim from Magnolia?

Not sure about buy in from the large owners.

Would likely depend on how much the private side would need to contribute.

Thanks, Aaron! This looks good! Its quite pricey, huh?! I will see what we can do. Do you think there is any possibility of buy in from some of our largest property owners?

Hi Angelina,

I received the quotes from Dekra-Lite on the across the street lighting concept.

The quotes are broken down by the 3 areas below and maps are also attached.

Area A- Lankershim from Hatteras to Chandler

Area B- Lankershim from Chandler to Huston (Gateway Sign)

Area C- Magnolia from Lankershim to Tujunja (the area from Lankershim to Vineland didn't have adequate poles on the southside of the street, primarily pedestrian standards)

Any questions let me know.

Thanks,
Aaron
